

# MESA Boot Camp

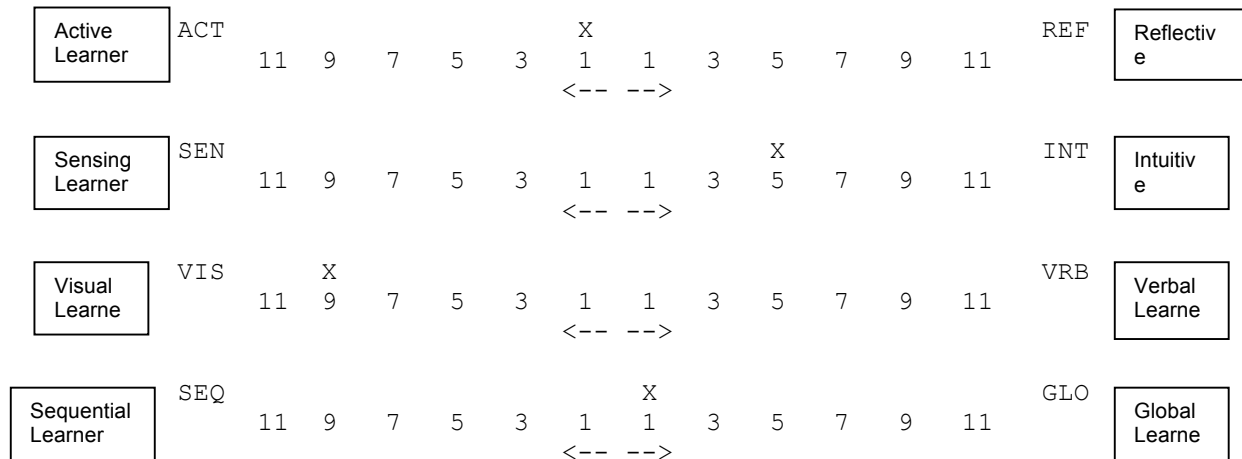

## STUDY SKILLS UNIT #1 LEARNING STYLES INVENTORY

**Activity 2: Complete the Index of Learning Styles Evaluation. Make sure you initial each step completed.**

- 1) \_\_\_\_\_ Go to [www.countingbear.com](http://www.countingbear.com), scroll down to "Review Topics" and then click on the "Study Skills" link. Then click on "Index of Learning Styles Questionnaire"
- 2) \_\_\_\_\_ The questionnaire requires you to answer 44 questions to determine your learning style. Click "a" or "b" to indicate your answer to every question.
- 3) \_\_\_\_\_ Hit the **"SUBMIT"** button at the bottom of the questionnaire so that your results maybe computed.
- 4) \_\_\_\_\_ **Print** a copy of your Learning Styles Map, which maps you learning style by x's (it is a scale with numbers on it that will have an x marked over the number).

Example of a learning style map and how to read it:

Results for: Renita D Mitchell

The x over a number is your preference for and the strength of that particular learning style, which could be mild, moderate or strong.

The higher the number the more you lean towards this learning style. If you are closer to the middle (mild), you could go either way (you are balanced).

In the example Renita is a mild active and global learner; however, she could be a reflective and sequential learner (she is balanced in these two groups). She is a moderate intuitive learner and a strong visual learner.
